JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Monday - 14 January 1963

1. Delivered to Mr. George Murphy, Joint Committee on Atomic Energy staff, eight copies of the original prepared statement which will be the basis for the Agency's briefing of the Joint Committee tomorrow. I pointed out to Murphy that the Director's testimony particularly would not follow this statement verbatim, but that the essential subject matter coverage would be as written in this paper. Additional copies will be provided tomorrow morning.
